HISTORY

Quatro Ventos, formerly known under the name Foral, is produced from grapes grown on the estate that gives it its name. Covering a total area of approximately 150 hectares, this century-old property is located in the Upper Douro (Douro Superior), on the borders of the parishes of Seixas and Numão, within the municipality of Vila Nova de Foz Côa. The estate comprises 45 hectares of vineyards, including both terraced vineyards and recently planted vertical-row vineyards. It is here that Quinta dos Quatro Ventos wines are produced.
